Dear Alex, I hope you're well. The mayor invited Alexis and Enrique to meet this Thurs and we are briefing Enrique today. Can you give me a status update on this request? I would appreciate it. Thanks.

Subject: FW: USEPA use of Tetra Tech? (NRC issued enforcement action for falsifying data)

Dear Alex,

I hope you are well. I wanted to let you know that the NRC on Oct. 11, 2016, finalized an enforcement action against Tetra Tech because management ordered staff to falsify samples collected to intentionally under-represent the true contamination level at the Hunters Point Naval Shipyard. Attached are NRC public documents and an NBC news piece about this issue. My Division Director wants to know how much EPA is using Tetra Tech for our work. Can you help me?

Thanks!

Yes Alex would have access to that information. I don't believe we have used them in R9 but other regions may have. Alex could ask his counterparts.

Hi Lily,

I suggest you check with Alex Kramer or Zach Slater in the contract's office.

I'm copying Nancy Riveland on this message in case she has any suggestions.

Thanks Lily. I think this letter is why Grant called me. He is trying to advise Matt.

He asked me about how much EPA uses Tetra Tech. I wonder if our contracts folks would have that data. Any ideas? We are probably going to get asked that at some point.

Enrique Manzanilla
Director, Superfund Division
US EPA Region 9
